>The Vision to provide sufficient area support coverage:
Each larger center serving densely populated areas up to half a million residents
and each smaller center serving larger rural areas with 25 thousand residents or more.
Each completed full size center will have the capacity to hold
one half to two percent of the population of it's area at one time.

Ongoing Yesnet student research will also increase focus on integrating
innovative & collaborative learning breakthroughs developed
with high levels of in class interactive discussion for creating
efficient new era methods to learning & best practices.

Cornerstone YesNet Reference Video
from Kryon Official on YouTube channelling
Four new paradigms for progress For YesNet to consider for
its mission/Vision statements
<https://youtu.be/E1orou1scAk>
